INDEX to Proceedings

AMERICAN CONCRETE INSTITUTE

VOLUME 59 — 1962

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Proceedings V. 59, Jan. 1962 to Dec. 1962 and Part 2, Mar. and Part 2, June 1963

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—Papers, reports, and discussions—are indexed in three categories:

1.	Title	**Column strength of long piles (59-28)** J. J. Hromadik June 1962	757
2.	Author	**Hromadik, J. J.**—Column strength of long piles (59-28) June 1962	757
3.	Subject	**Pile — Long — Column strength (59-28)** June 1962	757

Numbers in parentheses with each entry constitute the title number of the article. The first portion indicates the number of the *Proceedings* volume (in this case V. 59) in which the topic appears. The month and year indicate the JOURNAL issue. Page numbers of both *Proceedings* and JOURNAL are the same.

Concrete Briefs items, Problems and Practices items, Bibliographies, and original material appearing in the Current Reviews section carry an identifying (59-CB), (59-P&P), (59-B), or (59-CR) wherever they are entered in the index.

Admixture—Cold joint prevention in hot weather (59-CB) May 1962 109
Beam — Fire Resistance (59-CR) Nov. 1962 1635
Limit design—Bibliography (59-B) Dec. 1962 1873
Proportioning — Strength, workability durability, economics (59-P&P) July 1962 980

The index to Current Reviews published in this volume begins on p. 2118.

The index to technical material published in the "News Letter" sections (not a part of or bound with the *Proceedings*) is found on p. 2127. This index is included for the convenience of readers who retain the monthly issues.

ACI-ASCE Committee 326
Discussion (September 1962) 1323

Concrete Briefs

Reinforced Concrete T-Beam Design, by K. R. Patel 335

Current Reviews 341

From March 1962 JOURNAL

59-9 **Shear and Diagonal Tension, Part 3, Slabs and Footings** . . . **353**
ACI-ASCE Committee 326
Discussion (September 1962 JOURNAL) **1323**

59-10 **Surface Condition Effect on Bond Strength of Steel Beams Embedded in Concrete** **397**
James O. Bryson and Robert G. Mathey
Discussion (September 1962 JOURNAL) **1351**

59-11 **Prismatic Folded Plates** **407**
A. A. Brielmaier
Discussion (September 1962 JOURNAL) **1353**

59-12 **Modulus of Elasticity of Concrete Affected by Elastic Moduli of Cement Paste Matrix and Aggregate** **427**
Teddy J. Hirsch
Discussion (September 1962 JOURNAL) **1363**

59-13 **Influence of Reinforcement Stress-Strain Curve on a Concrete Flexural Member at Ultimate Load** **453**
Ib Falk Jorgensen
Discussion (September 1962 JOURNAL) **1375**

Current Reviews **463**

From April 1962 JOURNAL

59-14 **Design and Construction of Northlight Barrel Shells** **481**
Paul E. Mast
Discussion (December 1962 JOURNAL) **1903**

59-15 **Factors in Design and Construction of Lift Slab Buildings** **527**
Norman B. Green
Discussion (December 1962 JOURNAL) **1911**

59-16 **Ultimate Strength Design of Sections Controlled by Tension** **551**
F. P. Wiesinger and W. T. Marshall

59-17 **Behavior of Bond Under Dynamic Loading** **563**
Robert J. Hansen and Atis A. Liepins

59-18 **Continuity Connection for Precast Prestressed Concrete Bridges** **585**
Earl D. Bishop
Discussion (December 1962 JOURNAL) **1923**

59-19 **Influence of Support Conditions on the Behavior of Long Rectangular Tanks** **601**
J. D. Davies
